Mission statement for 'Zappy' Pot Painting Workshops

To have fun, inspire & develop social & creative skills.

To discover a refreshing form of education in the form of therapeutic relaxed art sessions

Building new -found confidence & courage to 'try something different'

To learn individually or within a group, no matter age or ability, background or creed.

Lynn the founder & creator of all things Zappy wishes to consistently pass on her skills, passion & originality as she continues her journey developing 'Zappy designs'; an idea born from her heart, inspiration & positivity from her love of life.

From the very beginnings of the first 'Zappy design' - white daisies on a red painted sweeping brush, given as a gift to Granny & with now over 40 exclusive 'Zappy designs' she knew, sharing her idea was the direction in which she wished to move forward; keeping Zappy designs very much alive.

Lynn's ethos & desire is to share & pass on her unique simplistic art form, teaching skills & unequalled patience & guidance, to a broad sector of the community, from the very young to a more senior generation. Giving everyone a chance to discover the value of 'learning through fun'
